PRESS BRICK

Dear Sir:-

SAND

LIME

I noticed an article written by you in the Birmingham News of December 15th. last and was very much interested in it and want to express what I think of the Centre football team on the field.

CEMENT

PLASTER

I have seen every game played here by Centre and Auburn and I can truthfully say that I have never before in my life seen any football team conduct themselves as the team from your college. They are clean as can be and perfectly fair in their play and above all they are gentlemen on the field of play.

ROOFING

MORTAR COLORS

WALL BOARD

I noticed time and again how a Centre man would help an Auburn man up when he was down and when an Auburn man got hurt at one certain point three Centre men carried him off the field. In conclusion I want to compliment you on your wonderful gentlemenly team and wish also that your team and college may enjoy a big year and that the same kind of sports will prevail always .

SEWER PIPE

FLUE LINING

WATERPROOFING

WALL TIES

I am a native Alabamian. Born and reared in Alabama. But cannot help but express my views to you when I see other institutions trying to down your wonderful little college.

FLUE HANGERS

Yours very truly,

Geo. W. Burt Jr.
