NOVEMBER 3, 1924

To the President
Centre College,
Danville, Ky.

Dear Sir:

Erwin High School, Tennessee, has a player known as S. G. Smith who has mysteriously appeared upon the scene. It is reported that he attended Carson-Newman College until the cancellation of the Carson-Newman--Centre football game. It is also reported that he was one of the players upon whom Centre based their protest.

Whether these stories are true we are unable to ascertain at the present. We do know that he recently came to Erwin and is living with one, G. McNabb, whose son attends Carson-Newman., and that he weighs approximately 190 pounds, punts around 75 yards and that he is a back-field man.

Erwin has not furnished us with facts concerning his past history except to say that he tried to enter Carson-Newman and was refused admission.

As several clubs in our league have protested the player we are anxious to find out the real truth and govern our actions accordingly. We are not so confident that the player's real name is S. G. Smith.

We have requested Erwin to furnish us with a record of his past history and so far they have not complied.

If you have any data that will help out our situation we would
