ANNOUNCEMENT.

In presenting his Eighth Catalogue to the public the Principal desires to express his grateful acknowledgments for the liberal patronage extended to him during the past eight years. The ninth session—beginning Wednesday, the 3d day of September—will be conducted by the same experienced Faculty, all of whom have been connected with the Seminary during periods ranging from one to eight years. The aim of the Faculty will be, as it has been from the beginning, to impart thorough instruction in *all* the branches of study, that his graduates may be fully qualified to teach, should they adopt teaching as a profession. Special prominence has always been given to Mathematical studies in all the Departments. As only a limited number of *boarders* will be taken, pupils who may desire to enter the Seminary as such should make early application. The Principal trusts that his patrons and other friends will continue to extend to him the patronage and encouragement heretofore so generously given.

COURSE OF STUDY.

PRIMARY DEPARTMENT.

Spelling; Reading; Oral Geography; Writing; Map Drawing; Object Lessons; Ray's Primary Mental Arithmetic

ACADEMIC DEPARTMENT.

Spelling, with Definitions; Reading; Primary English Composition; Hart's Language Lesson and Elementary Grammar; Milne's Practical Arithmetic; Stoddard's Intellectual Arithmetic; Descriptive Geography; Writing; Recitations; "Treasury of Useful Knowledge;" 3,000 Practical Words with Sentences.

COLLEGIATE DEPARTMENT.

FRESHMAN CLASS.

Milne's Practical Arithmetic; Stoddard's Intellectual Arithmetic; History of the United States; Hart's Lessons in Composition; Well's Science of Common Things; Hart's Grammar; Readings and Recitations.

SOPHOMORE.

FIRST TERM.—Elementary Algebra, (Loomis'); History of England; Zoology, (Hooker's); Rhetoric and Composition.

SECOND TERM.—Algebra, (completed); History of the World, (Thalheimer's); Physical Geography, (Huston's); Intellectual Arithmetic; Recitations and Essays.

SUB-JUNIOR CLASS.

This class may be omitted, if the pupil is fully prepared for the Junior Class, if not—requisite studies must be made up.

JUNIOR CLASS.

FIRST TERM.—Loomis' Higher Algebra or Arithmetic Reviewed; Greene's Analysis; Steele's Chemistry; Shaw's English and American Literature.

SECOND TERM.—Shaw's English and American Literature, (completed); Steele's Physics; Alden's Science of Government; Dana's Geology.

SENIOR CLASS.

FIRST TERM.—Psychology, (Haven's); Evidences of Christian-

ity, (Alexander's); Moral Science, (Haven's); Geometry, (Wentworth's); Physiology, (Dalton's).

SECOND TERM.—Logic, (Copper's); Political Economy, (Wayland's); Popular Astronomy, (Newcomb's); Botany, (Wood's); Trigonometry, (Loomis'.)

A special prize of a Gold Medal will be given for the first Honor in the Higher Mathematical Course, which includes University Algebra; Geometry, complete; Conic Sections; Trigonometry, plane and spherical, (including Mensuration, Navigation and Surveying); Analytical Geometry.

Essays and elocutionary exercises required throughout the entire course. Elocution will be taught in every class, to enable the young ladies to become accomplished in a beautiful and entertaining art,—that of "reading aloud well." Frequent recitations and readings will be given by the pupils before the school.

The regular Collegiate Course of Study covers a period of four years. This is preceded by a Preparatory Course occupying more or less time, according to the ability and *application* of the student.

EXAMINATIONS.

Very thorough and exhaustive written examinations will be made in each study and class before a pupil will be permitted to take up an advanced study.

GRADUATES.

A Diploma will be awarded to a student when she has completed the regular course of study. As this course of study is extensive, and thorough scholarship will be required, perhaps a few pupils will not apply themselves with sufficient diligence to become Regular Graduates; but to meet the necessity of these cases "Certificates of Proficiency" will be given in such studies as the student may have completed.

The *department* of the student may be taken into consideration in awarding a Diploma or Certificate.

Semi-annual reports of progress in studies will be sent to the parents or guardian.

THE COLLEGIATE YEAR,

Begins on the first Wednesday in September, and closes on the second Thursday in June.

We urge upon pupils the importance of being present at the opening of the session.

BOARDING DEPARTMENT.

We wish to surround the girls placed under our care with a true *home influence*, and will always endeavor, by kindness and love, to make them realize that, for the time this is *Home*, and not a mere boarding school. We think we can do this, especially if we have the hearty co-operation and delegated authority of the parents, for we desire to discipline our girls by appealing to their honor, and confiding in their word and integrity, thus teaching them *self government*, which seems to us far better than obedience to *mere rules*. We are earnestly seeking to make this a thorough, genuine school, where girls may be trained to become earnest, Christian women, as well as elegant, accomplished ladies.

Parents, please do not send us your daughters with a definite or indefinite promise that if they are not satisfied you will remove them at any time. Young people are occasionally fanciful; but if there should be any *seriously* just complaint made to you, notify us and we will undertake to rectify the trouble or satisfy you that it was whimsical. And, again, do not request us to comply with the wishes of your daughters concerning their studies and examinations, because in any arrangement of studies and classes we may make, we can only desire to benefit the girls. They may resort to you after we, who have considered and understood the whole case, have decided contrary to their wishes. We ask you to trust us, and we will seek to promote their highest interests and best welfare in mind, morals and manners.

We will require lady-like conduct on all occasions; prompt obedience to rules; strict observance of *study, rest and recreation* hours; strict observance of the Sabbath. The young ladies must attend church once every Sabbath (unless sick), with the Principal or Associate Principal, unless some other church is specified by the parents.

We will prohibit absence from chapel or recitation rooms in study hours; leaving any class without the consent of the Principal; absence from "home" without permission; boisterous noise in or about the house or grounds; reception of day scholars, or

other friends except in the parlor. We will not allow any pupil to spend a night away from the Seminary, unless authorized by the request of the parents.

Unrestricted correspondence with parents will be permitted, but the parents should be very careful to specify any others with whom they are willing their daughters should correspond. The correspondence must, however, be limited.

Each pupil is expected to furnish her own towels, toilet articles, napkins and napkin rings, and to have *every article* of her wearing apparel distinctly marked with her full name. Each should have an umbrella, india-rubber sandals and water-proof cloak.

THE BELL SEMINARY

Was the home of the late Hon. JOSHUA F. BELL, in honor of whom it is named, and was incorporated by an Act of the Legislature of 1877-'78.

The location of the Seminary within large, pleasant grounds, is one of the most agreeable parts of the town, and within ten minutes walk of eight churches, of different denominations, makes a desirable home for those who are to be sent away from parents and friends for educational advantages.

Danville—situated in the beautiful "Blue Grass District of Kentucky," is easily accessible from all points by eight macadamized roads and two railroads, running North and South.
